May 11, 2018

Mr. Steve Harland  
A2Z Test lab  
220 Power Court  
Sanford, FL 32771

Dear Mr. Harland:

Re: Retention of Laboratory Suitability, January 1, 2017 through December 31, 2017  
MIL-STD-750F, FSC 5961, VQE-18-032650, Control Number: 062394

We have reviewed your January 1, 2017 through December 31, 2017 commercial laboratory suitability annual retention report for MIL-STD-750. The reports indicate conformance with the requirements of DLA Land and Maritime's Laboratory Suitability Information booklet. Therefore, the listing of your MIL-STD-750 capabilities as stated in your latest laboratory suitability letter, VQE-17-031754, will be continued on the List of Commercial Laboratories Suitable for Testing Military Devices.

This suitability prohibits your company from removing or altering the device marking. Any device that fails testing conditions shall be identified (isolated) as a reject and returned to the device manufacturer for verification of failure mode.

Electrostatic discharge sensitivity (ESDS) requirements as stated in MIL-PRF-19500 are enforced by this Center. Therefore, all semiconductor devices will be handled as marked, unless otherwise notified by device manufacturer.

Your next retention of commercial laboratory suitability report should cover calendar year 2018 and must be submitted by March 1, 2019. It should be formatted to contain the items of Section IV of the DLA Land and Maritime booklet mentioned above. If we do not receive the report by this date, your capabilities may be removed from the List of Commercial Laboratories Suitable for Testing Military Devices.

If you have any questions, please contact Mr. Carl DelloStritto at 614-692-0616.

Sincerely,

RAYMOND KOLONCHUK  
Chief  
Electronic Devices Branch
